FOLIAGE	<p> UV AVAILABLE Commercial Silk International's UV (Ultraviolet) artificial foliage is created through a process by which ultraviolet blocking chemicals are impregnated into the materials during the manufacturing process. These chemicals are blended with the fabric as well as the plastic or PVC parts. Our outdoor foliages have been tested for colorfastness according to ASTM G155-05, and after one year of UV exposure equivalent to Miami, Florida, our product had NO COLOR LOSS visible by sight.</p>
	Plastic Leaves
	Available in Burgundy, Fall, Green or Light Green Colors
BASE	Hanging Basket
CAD and 3-PART SPEC FILES	Request downloadable CAD and 3-Part Specifications for inclusion in your plans. Includes drawings in elevation and plan view as well as plant details.
